

Commentary on the Gospel for Mon, Apr 4th 2011

In today's Gospel reading, we see the curing of the son of the official, which encourages us to ask the Lord to help us in our needs through prayer. At times, we feel the response of the Lord: "don't you believe it is possible, you pray without believing". When we take the word of the Lord into our lives, and it becomes part of us, it leads to a miracle. The Word of God drives and directs our path to an appropriate form. It all has to do with our faith, if we maintain a strong relationship with God; he will arouse in us an appropriate response to our needs in life. Let us pray today, that we will continue living our lives believing in God always, that he is with us.
