

Commentary on the Gospel for Tue, Jul 26th 2011

Moses was able to speak to God face to face as he led the Israelites into the promised land. We can speak to God in prayer as we make our journey of faith towards being reunited with God the Father. We have a prophetic role which we received at baptism so that by our life we make others aware of God's presence. We live in the midst of the world so we are subject to contamination by the values of the world. It is necessary to strengthen our relationship with Christ so that the Holy Spirit can guide us in the right direction.
