

Commentary on the Gospel for Mon, Nov 7th 2011

Lord increase our faith for the many times that we scandalized other people because of our wrong doings, of not being faithful to our commitments in life and for not leading a good example and witness to our Christian life. Lord increase our faith when we are scandalized by the many evil doings in our society, when we get frustrated with our leaders, when we see despair and hopelessness in our country. Lord increase our faith because it is hard to forgive a brother who hurt and offended me. Lord increase our faith because our pride and our lack of compassion and mercy creep into our hearts.
